

IAESTE INDIA - FACTSHEET

Offer Reference Number: SE-2026-7-VOLG

Section 1: Academics

Level	University/School	Year of Completion	Percentage/CGPA
Class X	St. Paul's Sr. Sec. School	2020	82.8
Class XII/Diploma	MDS Sr. Sec. School	2022	71.8
Graduation	JECRC University	2026	7.7

Current Fields/Branch of Study:

Bachelor of Technology (Computer Science)

Total Number of Semesters in Current Course:

8

Semesters Completed:

6

Number of Backlogs (If any):

0

Section 2: Offer Related Skills

Programming Languages/Software	• C++; JAVA; Python; HTML; CSS; JAVA Script; Node.js • MATLAB • Microsoft Power BI
Courses	• Generative AI by Microsoft and LinkedIn • Project Management Foundations • Complete Data Science, Machine Learning, DL, NLP • Data Analysis with Python and Pandas
MOOC Courses	• Google Analytics for Beginners • Full-Stack Web Development • Machine Learning Bootcamp • AWS Cloud Practitioner Essentials
Participations	• Microsoft Learn Student Ambassador Bootcamps • Workshops of Robotics • Google Developer Student Club Bootcamps • Back-End Web Development
Languages Known	• English • Hindi

IAESTE INDIA - FACTSHEET

Other	• Time Management • Confidence • Project Management • Team Work • Emotional Intelligence
-------	--

Section 3: Work Experience

1. Paper Presentations

2. Projects and Trainings

Title	Description
WnderLust (Traning Web Development project) Link: https://major-project-sclo.onrender.com/listings	• Built a practice full-stack travel accommodation platform using Node.js, Express.js, and MongoDB Atlas to simulate listing, browsing, and managing stays. • Designed RESTful APIs, implemented CRUD functionality, and structured data using MongoDB with Mongoose for schema modeling and validation. • Applied backend best practices including MVC architecture, environment-based configs, and cloud database deployment, strengthening hands-on MERN-stack development skills. • Github Repo.: https://github.com/PriyanshS5/MAJOR_PROJECT
Business Insight 360 – Power BI Dashboard	• Built a Power BI executive dashboard across Finance, Sales, Marketing, and Supply Chain using advanced DAX, drill-throughs, and KPI scorecards. • Designed a star-schema model and ETL workflows in Power Query; optimized performance with DAX Studio and Performance Analyzer. • Delivered insights on variance, forecast accuracy, profitability, and customer/product performance to support data-driven decisions. • LINK: https://tinyurl.com/f69re4ey
Lane Line Detection Project Github Repo: https://github.com/PriyanshS5/lane-line-detection-project	• Developed a lane line detection system using Python, OpenCV, and MoviePy to identify and highlight road lanes from video footage. • Implemented Canny edge detection, Hough Transform, and ROI masking for precise lane boundary detection and visualization. • Processed and exported annotated output videos, showcasing real-time computer vision applications in autonomous driving.

IAESTE INDIA - FACTSHEET

3. Internships

Title	Description
Remote Intern at Iran University of Science and Technology (June 2023 – August 2023)	• Collaborated with an international team to develop Automatic High Beam Assist (AHB) sensors for automobiles. • Utilized MATLAB for simulation and analysis of sensor data and object detection algorithms. • Contributed to prototype development, enhancing detection accuracy and automation reliability. • Gained practical exposure to automotive electronics, sensor systems, and embedded technologies.
Remote Intern Universidad Santo Tomás, Tunja (Colombia) (June 2025 – August 2025)	• Collaborated with Universidad Santo Tomás, Tunja (Colombia) on the DTI Tunja smart tourism project focused on digital cultural heritage. • Researched international museum technologies and tourism platforms, studying digital tools and user experience trends. • Designed 3D cultural heritage models and built WebAR prototypes using Blender and 8th Wall to support immersive storytelling. • Strengthened skills in research, 3D asset development, AR deployment, and cross-cultural academic collaboration.

Section 4: Co-Scholastic Activities

1. Co-Curricular Achievements:

- Completed the bootcamp of Machine Learning organized by Google Developer Student Clubs.
- Completed the bootcamp of Back-end Web Development by Google Developer Students Club.
- Robotics Workshop by IIT Bombay

2. Extra-Curricular Achievements:

- Vice President at IAESTE India LC JECRC (2024-25).
- Head, Administration and Head, Marketing at IAESTE India LC JECRC (2023-24).
- PR & Outreach Lead at Hacker Earth (2023-24).
- Local Committee Member at IAESTE LC JECRC (2022-23).
- Lead the College Volleyball Team
- Cadet at 6 RAJ AIR SQN NCC
